

New England Crime Analysis & Intelligence Conference

Hosted by MACA & NESPIN

Exhibitor Information Packet

About the Conference

The Massachusetts Association of Crime Analysts is excited to return to in-person training! MACA has hosted an annual training conference for 23 years, gathering analysts, officers and command staff from across New England and throughout the country for five days of world class training. We have subject matter experts teaching breakout sessions and national leaders in policing giving the keynote addresses.

This year, the conference is moving to a new venue in historic Plymouth, Massachusetts and partnering with the New England State Police Information Network to expand our pool of attendees.

We average 100 attendees over the week and invite you to join us.
